Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's election without traverse of Group I in the reply filed on 12/06/2006 is acknowledged.

Claims 7-50 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 12/06/2006.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5 and 6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Marconi et al (Biomaterials 18(1997) 885-890).

Marconi et al disclose EVAL which is covalently heparinized (See abstract ; Figures 2-3). The instant claims are anticipated by Marconi et al.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1615

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 4 rejected under 35 U.S.C. 103(a) as being unpatentable over Marconi et al in view of Advanced Cardiovascular Systems, Inc (WO 02/078668).

Marconi et al disclose EVAL which is covalently heparinized (See abstract ; Figures 2-3). Marconi et al does not however teach the use of EVAL/heparin in stents.

Advanced Cardiovascular Systems, Inc disclose the combination of EVAL/heparin used in stent coatings at claims 1 and 21. Those of ordinary skill would have therefore expected similar therapeutic results from the instantly claimed composition given the teachings of Marconi et al which shows the combination of EVAL and heparin, and further in view of Advanced Cardiovascular Systems, Inc which use such coatings on stents. Those of ordinary skill at the time of invention would have found it obvious to claim the instant EVAL/heparin coating on a stent.
